I completed my studies at State Polytechnic of Malang, specializing in Information Technology. My passion lies in the realm of technology, with a particular focus on web development, database management, and quality assurance roles. Despite being in the early phases of my professional journey, I've actively participated in projects that have significantly enhanced my knowledge and skills within the Web Developer and Quality Assurance domains.

Work Experiences

PT. Omni Hotelier International - Bali, Indonesia

Oct 2023 - Present

Internship Quality Assurance

- Optimized test procedures that increased result accuracy above 90% by addressing production issues, product defects, and their impact on end users.
- Manage documentation and reporting of website testing results and provide feedback to the developer or product development team for quality improvement.
- Compose modules related to the application usage guide, including document modules for the booking engine and in-app help functions.

PT. PAL INDONESIA - Surabaya, Indonesia

Jun 2022 - Dec 2022
